

Technical Information

Model TES.11.01*THERMOWELL sector***Threaded tube thermowell**

Description	Thermometric tube thermowell, threaded process connection.
Material	AISI 304 / 316 / 316L / 321 / INCONEL * other material on request
Immersion lenght (U)	From 150 to 4000 mm
Extension lenght (T)	100 mm (std) * other dimensions on request
External diameter	from 9,0 to 14,0 mm (std) * other dimensions on request
Hole diameter	da 7,0 / 9,0 / 11,0 mm (std) * other dimensions on request
Instrument connection	½" NPT / ¾" NPT male * other dimensions on request
Style	Straight (DIN 43772)
Tip thickness	3,0 mm (std)
Process connection	½" NPT / ¾" NPT * other dimensions on request
Marking	Thermo Engineering logo Hole diameter Thermo Engineering P/N Customer P/N Tag number Heat number Material * other marking on request
Tests	Visual and dimensional Internal hydrostatic pressure External hydrostatic pressure *other tests on request
Certifications	Certificate of conformity and final test 3.1 certificate of traceability of materials *other certifications on request
